Profile summary

Computer Engineering student at Yachay Tech University (9th semester), with hands-on experience in machine learning, evolutionary algorithms, numerical analysis, and full-stack web development. Served as a Research Assistant in a protein design project combining genetic algorithms and deep learning, and as a Frontend Developer at an education-focused startup. Passionate about bridging theoretical computation with real-world scientific and engineering applications.

Education

In progress: ..... Bachelor of Science in Computer Engineering (9th Semester)

Yachay Tech University — Urcuquí, Ecuador.
Relevant coursework: Machine and Deep Learning, Numerical Analysis, Parallel Computing, Algorithms, Data Structures.

Technical skills

- Python • C/C++ • JavaScript / TypeScript • MATLAB • HTML5 / CSS3
- React.js • React Native • Next.js • Node.js • Flask • Git • Docker • CUDA
- LangChain • LangGraph

Languages: Spanish (Native) · English (Intermediate-Advanced)

Professional experience

CV outline: *Personal data* • *Education* • *Professional experience* • *Academic presentations* • *Memberships* • *Skills & Certifications* • *Research interests*

Sep 2025 - Nov 2025 ..... Research Assistant – Protein Design Project.
Yachay Tech University — Urcuquí, Ecuador.
Developed genetic algorithms using the DEAP library for protein structure optimization. Implemented computational methods combining deep learning and bioinformatics techniques.

Jun 2024 - Dec 2024 ..... Frontend Developer.
Tuto-U Startup — Remote.
Developed MVP platform using Next.js, TypeScript, and Tailwind CSS. Implemented responsive web design for optimal user experience across devices. Collaborated in an agile development environment using version control with Git. Contributed to frontend architecture and component library development. (www.tutou.app/)

Academic presentations

Nov 2024 ..... Speaker – Numerical Analysis Session.
VI Jornadas Ecuatorianas de Matemática, ESPOCH 2024 — Virtual.
Presented research: "Comparison of Explicit and Implicit Finite Difference Methods for Solving the Wave Equation". Demonstrated expertise in numerical methods and computational mathematics.

Memberships & Leadership

Current: ..... IEEE Member.
Institute of Electrical and Electronics Engineers.
Active member of the IEEE. Hold memberships in the Computational Intelligence Society (CIS), serving as an Executive Committee Member (Directiva), and the Electronics Packaging Society (EPS) as a regular member.

Current: ..... Official Web Developer – Compufest.
School of Mathematical and Computational Sciences — Yachay Tech University.
Lead developer for the official platform (compufest.yachaytech.edu.ec) of the university's open house. Engineered the site to showcase academic activities and manage the digital presence of the event.

Skills & Certifications

[1]. Interact2Hack 2026. Universidad San Francisco de Quito. (Web scraping, Agentic Workflows).

[2]. Samsung Innovation Campus: NLP & Deep Learning. Samsung (ID: SIC1492-2025).

[3]. Introduction to WebAssembly (LFD133). The Linux Foundation (ID: LF-w5ipc783so).

[4]. Hackaton CoAfina 2025. CoAfina (Computer Vision: YOLO, Roboflow).

[5]. MLOps Concepts. DataCamp (CI/CD for Machine Learning).

[6]. PyTorch and Deep Learning for Decision Makers. The Linux Foundation (ID: LF0cyhvi69kp).

[7]. Introduction to Deep Learning with PyTorch. DataCamp.
